THE GAME

You have decided to overthrow the evil empire of the music-hating Cories by invading their solar system and destroying them with good music. Your plan is to collect musical components, stored in protective orbs, from deep within their three home planets of Stick, Aching and Walkman, By towing the orbs to the surface and depositing them in the correct area you can construct the machine to destroy the Cories on each planet once and for all and return the joy of music to the universe. Good luck!
